SKILLS

Programming languages: Adept in Javascript, HTML / CSS, React,SQL & Python.

Creativity: Able to implement visually appealing and functional design elements and also proficient in Adobe photoshop, Illustrator and Adobe Premiere Pro.

Problem solving: Skilled in bridging the gap between creative concepts from UX designers and practical front-end implementation.

Quick Learner: Continuous learning and keeping up-to-date with the latest web development trends and technologies.

SUMMARY

Creative front-end web developer, with over 2 years of experience in designing, developing, and maintaining websites and web applications. Proficient in multiple programming languages and frameworks, including; HTML, CSS, Javascript, React and others. Passionate about implementing user-friendly platforms with simple functionality. Seeking to develop my skills in a challenging fintech environment.

EXPERIENCE

Web Developer

ProcessDial Business Solutions Ltd, Lusaka
JUN 2023 - Present

- Develop web apps for clients in different industries using WordPress, Woocommerce, Shopify and the best platforms available.
- Manage client websites and updates on a continuous basis.
- Create well-designed and tested code using best practices for web development, including responsive design and mobile display.
- Optimizing website performance by improving page load times, minimizing server response times, and implementing caching mechanisms.
- Create and maintain workflows for teams, providing visibility and ensuring balance.
- Maintain up-to-date knowledge of industry trends and technologies

Web Developer

Mutakamwa Productions, Lusaka
FEB 2023 - Present

Responsible for participating in the full life cycle of a new website development project and for implementing best practice procedures in all areas of work. Also, in charge of writing content for the website. My other tasks include;

- Develop illustrations, logos and other designs using Adobe Photoshop.
- Implement security measures to protect the website from potential security threats.
- Optimizing website performance by improving page load times, minimizing server response times, and implementing caching mechanisms.
- Updating and maintaining the website to ensure that it remained up-to-date and relevant.

IT-Specialist

Katoya Innovations, Lusaka
APR 2023 - Present

Specific Roles and Responsibilities:

- **POS Installation and Setup:** Responsible for setting up and installing point of sale (POS) hardware and software. This includes configuring terminals, scanners, printers, cash registers, and other peripheral devices.
- **Software Development:** Design and develop secure and scalable software applications and tools for various organizations using best practices and industry standards.
- **Maintenance and Repairs:** Perform regular maintenance to ensure that computers or POS systems are functioning correctly. Troubleshoot and repair hardware and software problems.
- **User Training:** Provide training to end-users, such as cashiers and staff, to ensure that they can operate the POS system efficiently. This includes educating employees on basic functions, reporting, and troubleshooting common issues.
- **Web designing:** Designing the visual layout and user interface of websites and web applications to ensure they are aesthetically pleasing and user-friendly.

Customer Care Executive

Mobile City Phones Paradise, Lusaka
DEC 2020 - DEC 2022

- Serve customers by providing product and service information and resolving product and service problems.
- Attract potential customers by answering product and service questions and suggesting information about other products and services.
- Recommend potential products or services to management by collecting customer information and analyzing customer needs.
- Film content used to maintain company social media presence and ensure equipment for a shoot is present and working.
